

**WINNER – MANDARIN MATRIX AWARD FOR COVER ART
HKYWA 2021**

Student: Si Ran Luo,
School: Regents Primary School of Shenzhen.

I am Si Ran from Regents Primary School of Shenzhen, winner of the Cover Art.

Thanks to the organizing committee for providing me with such a wonderful experience. I really cherished this opportunity to improve my painting skills.

How did you prepare for HKYWA 2021?

In the early stage, I read some books about Huangshan mountain, collected a lot of information from the Internet, and then did a lot of sorting. When I finished, I began to think of a theme for my cover, and I wanted to show an interesting story in my piece.

In the process of painting, I constantly changed and perfected my work. Improving draft by draft until I created a piece of work that I felt happy with it.

How did you feel when it was announced that you were the winner of Cover Art category?

In this competition, my artwork won the cover design competition prize! I am thrilled, but I know I enjoyed the process of creating much more. This makes me understand the importance of persistence, keep trying and never give up. At the same time, my imagination and creativity have improved significantly. I am forever grateful for this opportunity and its motivation to accomplish something I can be proud of.
